fly.

x xh2 x(x)

1. A titmouse dropped a feather  
 Upon the village green:  
 Be sure, there is no other  
 Sign of where she's been;

2. For she has flown - another  
 Is growing in its place -  
 And of her swift departure  
 There is no further trace.

3. I look into the future,  
 I hold it to my eye;  
 She's not inclined to bother -  
 She only wants to fly.

4. I stoop each day to gather  
 Whatever quill may fall:  
 I only wonder whether  
 I'll ever find them all.
