ne'er so high, Green grow'th - the hol - ly.

1. *Green growth the holly
So doth the ivy
Though winter blasts blow ne'er so high
Green growth the holly*

2. *Gay are the flowers,
Hedgerows and ploughlands.
The days grow longer in the sun
Soft fall the showers*

3. *Full gold the harvest,
Grain for thy labour.
With nature work for daily bread
Else, man, thou starvest*

4. *Fast fall the shed leaves,
Russet and yellow.
But resting buds are snug and safe
Where swung the dead leaves*

5. *Green grow'th the holly
So doth the ivy
The song of life can never die
Hope! saith the holly.*
