

Stuck in the Mud

Stuck in the mud, stuck in the mud
Tugs at your bones, sucks at your
blood

Stuck in the mud, stuck in the
mud.....
There'll be no friar to shrive your
soul,
When the faceless mire takes its toll

1. Mists are gathering
Cold and chilling
Sapping, sucking
Warmth away
All en-shrouding
Darkness falling,
Banishing the light of day

Chorus:
Stuck in the mud, stuck in the mud
Tugs at your bones, sucks at your
blood
Stuck in the mud, stuck in the
mud.....
There'll be no friar to shrive your
soul,
When the faceless mire takes its toll

2. Faltering, flickering
Fae and fickle
Lambent lights
Seduce, elude
Shifting, wavering
E'er deceiving
Dissappearing
If pursued

Chorus

3. Thorns latching
Briars catching
Tendrils twine,
Entrap, ensnare
Incessant insects
Swarming, stinging
Vast voracious maws -
beware!

Chorus

4. Snatch at shadows
Unknown terrors
Hidden horrors
Leaden dread
Haunting echoes
Ever fleeting
Frenzied, fearing
All hope fled

Chorus

5. Flail in vain
Panic rising
Heart a-hammering
Ragged breath
Lungs constricting
Rasping, wheezing
smothering, squeezing
Crushing death

Chorus
